Hi Roy,

Following up to see if you have the other information I asked about, particularly whether the April 2020 letter resulted in any enforcement actions or additional wastewater projects.

Subject: CRW sewer overflow response

Hi Terri, Steven and Pamela,

I'm following up on this letter from last April in which you cited deficiencies in Harrisburg/CRW's response to sewer overflows and demanded additional remediation to reduce sewer discharges.

What has been done since then? What was CRW's response, if any? Have there been any sanctions handed down regarding this?

Also, I'd appreciate the most updated information you have on the amount of combined sewage being discharged per year or per month. According to this letter, in 2019 the CRW discharged 900 million gallons.

I'll be filing a story tomorrow morning. I'd appreciate a response this afternoon.

Thanks!
